Description of Complaint:

I drove through the western end of Northville Township this morning (Saturday Dec. 3, 2016) after receiving numerous odor complaints. I was out between 9:30 and 10:30 AM.

NOTE: Addresses in this report do not represent people who complained; they are intended to locate the points of odor.

The smell at Northville Ridge sub was eye-watering in front of **Non-Responsive** (just south of Six Mile).

There was medium odor at Ridgewood School, in Arcadia Ridge **Non-Responsive** and in Northville Hills **Non-Responsive**)

There was light odor in the Northville High School parking lot and at Six Mile and Beck, and at Six Mile and Ridge. I did not find odors in the Edenderrys, the Crestwoods, Shadbrook, Woodlands North, Steeplechase or Stonewater subdivisions.

At Arbor Hills, I met with Bob Walls, the general manager. We drove the neighborhoods together around 11AM, and most of the odors had dissipated. I did still smell it at Arcadia Ridge. Mr. Walls could not smell it.

the odors had dissipated. I did still smell it at Arcadia Ridge, Mr. Valls could not smell it.
At the dump he showed me the only operating site, on the western face of the hill. Garbage odor was strong.

While the weather apps on our cell phones showed wind from the west or southwest, it appeared to be blowing from the south. I would guess the wind was swirling around up on top of the hill.

Mr. Walls is going to investigate the load log from this morning, and see if anything particularly odorous was taken in.
